E-Course Creation Service Process

▶ **Needs Analysis:**

The provider will conduct a thorough analysis of the client's training needs and goals.

▶ **Design & Development:**

Based on the collected data, a team of instructional designers and content developers will create: Detailed course structure | Course/content - using effective multimedia elements.

▶ **Review & Feedback:**

The draft version of the e-course will be shared by the provider, and the final version will be refined based on the feedback received.

▶ **Delivery:**

Once the project is approved, an e-course file will be provided in SCORM format, ready to be uploaded to the client's LMS platform.

▶ **Support:**

After handing over the project, if necessary, support to solve any problems will be provided.
